

Dear colleagues!

**We invite you to take part in the work of the
International Scientific and Practical Conference**

**“Contemporary aspects of biological safety in case of emergent infectious
animal diseases in the context of the UN strategy “One Health”,
dedicated to the 100th anniversary of the foundation of the National Scientific Center
“Institute of Experimental and Clinical Veterinary Medicine”,
which will take place on November 14–15, 2023.**

Event organizers:

*National Academy of Agrarian Sciences of Ukraine
National Scientific Center “Institute of Experimental and Clinical Veterinary Medicine”
State Service of Ukraine on Food Safety and Consumer Protection
Institute of Microbiology and Virology named after D. K. Zabolotny NAS of Ukraine
SI “L. V. Gromashevsky Institute of Epidemiology and Infectious Diseases NAMS of Ukraine”*

*With the support of
the Defense Threat Reduction Agency of the US Department of Defense*

Main areas of work:

1. Current problems and prospects of ensuring biological safety and biological protection of animal husbandry in Ukraine concerning emergent diseases in the conditions of martial law and the post-war period.
2. Modern principles of epizootology, epidemiology, monitoring, risk forecasting and control of zoonoses in the context of food security and implementation of the UN strategy “One Health”.
3. Determination of genetic variability, ecology, and phylogeography of emerging infectious diseases’ pathogens using modern research methods.
4. Ecological and biological properties of arthropods-vectors of infectious and invasive diseases’ pathogens.
5. Development and implementation of the latest competitive tools for monitoring and diagnosing infectious emergent animal diseases based on molecular-genetic methods.
6. Control of the quality and safety of agricultural products following the principle “from the farm to the table”.
7. Historical aspects of veterinary science development in Ukraine.

The publication of the 109th issue of the interdepartmental thematic scientific collection “Veterinary Medicine” will be timed for the conference.

Requirements for the design of articles are at the link: <http://www.jvm.kharkov.ua/rules.php>.

Deadline for submission of articles: **until August 15, 2023.**

The location and format of the conference, taking into account the security situation, will be announced in the invitation to the conference, which we will send you later.

For more information contact Larysa Kovalenko (+380984660478)
or Dmytro Vovk (+380679833483) or e-mail nsc.iecvm.conference@gmail.com.

We look forward to meeting you!

Sincerely, the Organizing Committee of the Conference
